Test Report: Basic Calculator - Build 9

Generated 2026-10-21 22:12:59

Total	Passed	Failed	Error	Pass rate
12	0	12	0	0.0%

Test case name	TC01 Add [2, 3] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Add **First number**: 2 **Second number**: 3 **Integers only**: No **Expected result**: 5 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Add', enter First number '2' and Second number '3'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC02 Add [-2, -3] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Add **First number**: -2 **Second number**: -3 **Integers only**: No **Expected result**: -5 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Add', enter First number '-2' and Second number '-3'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC03 Add [-5, 3] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Add **First number**: -5 **Second number**: 3 **Integers only**: No **Expected result**: -2 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Add', enter First number '-5' and Second number '3'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC04 Add [0, 0] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Add **First number**: 0 **Second number**: 0 **Integers only**: No **Expected result**: 0 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Add', enter First number '0' and Second number '0'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC05 Add [7, 0] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Add **First number**: 7 **Second number**: 0 **Integers only**: No **Expected result**: 7 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Add', enter First number '7' and Second number '0'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC06 Add [1.5, 2.25] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Add **First number**: 1.5 **Second number**: 2.25 **Integers only**: No **Expected result**: 3.75 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Add', enter First number '1.5' and Second number '2.25'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC07 Add [9999999999, 1] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Add **First number**: 9999999999 **Second number**: 1 **Integers only**: No **Expected result**: 10000000000 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Add', enter First number '9999999999' and Second number '1'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC08 Subtract [5, 3] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Subtract **First number**: 5 **Second number**: 3 **Integers only**: No **Expected result**: 2 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Subtract', enter First number '5' and Second number '3'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

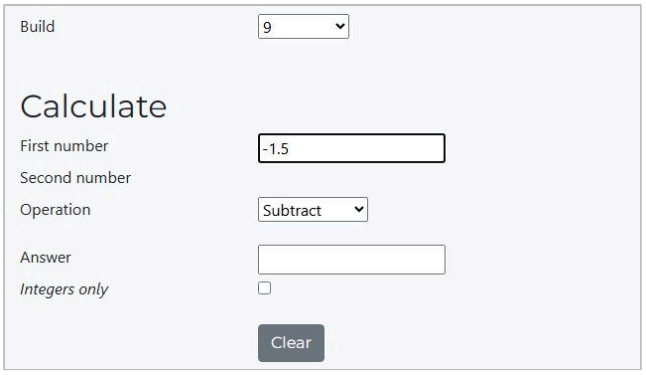

Test case name	TC09 Subtract [3, 5] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Subtract **First number**: 3 **Second number**: 5 **Integers only**: No **Expected result**: -2 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Subtract', enter First number '3' and Second number '5'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC10 Subtract [0, 5] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Subtract **First number**: 0 **Second number**: 5 **Integers only**: No **Expected result**: -5 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Subtract', enter First number '0' and Second number '5'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC11 Subtract [-1.5, 2.5] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Subtract **First number**: -1.5 **Second number**: 2.5 **Integers only**: No **Expected result**: -4 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Subtract', enter First number '-1.5' and Second number '2.5'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.

Test case name	TC12 Subtract [4, 4] int=No (CALC)	Total status	FAIL
Test data	**Build**: Build 9 **Operation**: Subtract **First number**: 4 **Second number**: 4 **Integers only**: No **Expected result**: 0 **Expected error**: (empty)		
Pre-condition	Browser is open and https://testsheepnz.github.io/BasicCalculator.html is loaded with Build 9 selected in the Build dropdown		

No.	Test status	Test step	Picture	Expected
1	FAIL	Select Operation 'Subtract', enter First number '4' and Second number '4'		The selected operation and the entered values are displayed in the fields **Actual:** Step failed: TimeoutError: locator.fill: Timeout 5000ms exceeded.
